

## TO GET HERE

**From downtown:** take Hwy 30. Pass under the St. Johns Bridge, through Linnton and the Sauvie Island stoplight. The next stoplight will be Cornelius Pass Rd.

Go left on Cornelius Pass Rd. about 1 1/4 miles.

Turn right on Sheltered Nook Rd. (you'll see a "T" sign beforehand).

**From the south:** take hwy 26 to Cornelius Pass to Sheltered Nook (left turn). Follow Sheltered Nook curves (6 tenths mile) and turn left (90 degree corner). Go to the bottom of the hill (1 tenth mile). You'll see a row of mailboxes on right at the bottom (across from turquoise house). Follow the straightest road up a hill (1 tenth mile). You'll pass a brick home and log home on the left.

Keep going up until you see a RENE.ART sign with an arrow pointing left. It'll be straight in front of you.

Our drive angles off to the left up above the log home (L) and just before the road turns to the right. Our house number is 16530 (on a 4x4 post on left side of the drive where you turn left). Stay to the left as you follow the curved drive on up to our house.

The classroom door is down the walkway past the magnolia tree. Unload there if you like, then please drive around to the back where you can turn around. The first car here will park far left, along side the blueberry bed and cold frame in front of the house (opposite the classroom walkway) and others can park behind them.

Our common driveway (past the mail boxes) is steep and narrow but completely paved.
